My job is a long distance from my home, almost 50 miles away. I have to wake up early every morning, as I'm always in a rush. There's never enough time for a relaxed breakfast. At exactly 6:00 AM, I get into my car and start the long drive. During the morning rush hour, though, it's not very enjoyable. The heavy traffic is a little bit annoying. So I always listen to my favorite classical music CD's in the car – Chopin, Mozart, and Bach. That cheers me up a lot.

Saturday is perhaps the most highly regarded day of the week. Because Sunday follows it (and there is presumably no work or school to attend, for most individuals), everyone is free to stay out (or awake) until late at night, having fun with plans or other leisure-related activities. To be sure, Saturday is generally thought of as a day to partake in hobbies that couldn't otherwise be enjoyed during the regular week

A Start-up is a new business that has just begun. Starting a new business is difficult and Startups are very vulnerable trying to compete with more established companies in the Business world. New businesses are often started in a bedroom or home office. Mark Zuckerberg created Facebook from his Harvard dormitory. Steve Jobs started Apple in his father's garage.

A handwritten signature in blue ink, appearing to read "Gavriel Andre", is written in a cursive style.
